

Hi5 X Basic gloves 3131X, red/black

The Hi5 X Basic gloves 3131X from DS Safetywear offer an optimum combination of functionality and comfort. The latex-coated surface ensures a soft and elastic solution that adapts ideally to the shape of the hand. This results in a perfect fit and excellent wearing comfort, even during prolonged use.

Thanks to their non-slip performance and excellent grip, these gloves are particularly versatile. They are suitable for both manual work and industrial applications where precision and safety are required.

In summary, the Hi5 X Basic gloves offer a reliable protective solution for a wide range of working environments without compromising on comfort.

- Latex coating
- A soft and elastic solution
- Perfect fit and excellent wearing comfort
- Excellent grip and non-slip performance
- Versatile areas of application
