

Dimpled foam set for ESD case K2004 ESD, black

Discover the high-quality studded foam for ESD cases K2004 ESD from Licefa, available at Weidinger.eu. This set consists of two dissipative, anthracite-colored nubbed foam blanks in a ratio of 1:2 (nub to base material) with the dimensions 275x185x30 mm. The dimpled foam is specially designed for the ESD case 2432285 and offers optimum protection for sensitive electronic components. The article number 2424869 makes it easier for you to order.

The precise processing of the dimpled foam ensures safe storage and transportation of your electronic components by effectively dissipating electrostatic discharges. This minimizes the risk of damage and increases the service life of your devices. The custom-fit shape ensures easy handling and a tight fit in the case, while the robust material guarantees durability. Trust in the quality of Licefa and protect your valuable electronic products with these indispensable accessories.
