

ESD insert for Euro box 3 and 4, 16 grooves, 553 x 353 x 38 mm

Discover the ESD insert from Licefa, available at Weidinger.eu, which has been specially developed for electronics production. This high-quality inlay, measuring 553 x 353 x 38 mm, offers optimum protection for sensitive electronic components. Made of dissipative polystyrene (PS), it ensures a conductivity value in the dissipative range of $>1 \times 10^4$ to $<1 \times 10^{11}$ ohms, which effectively prevents static discharges.

The insert is finished in elegant black and has 16 grooves that are suitable for components with a diameter of up to 20 x 500 mm. Thanks to the practical recessed grip and the option of reversible stacking, handling is particularly user-friendly. This insert fits perfectly into size 3 and 4 Euro boxes, making it a versatile accessory for your storage and transportation requirements.

With item number 2426070, this ESD insert is an essential accessory for anyone who values safety and efficiency in electronics manufacturing. Trust in the quality of Licefa and protect your sensitive components optimally.
