

ESD stacking box with hinged lid, internal dimensions: 75 x 50 x 33 mm

Discover the ESD stacking box with hinged lid at Weidinger.eu, the ideal solution for the safe storage of sensitive electronic components. With compact internal dimensions of 75 x 50 x 33 mm, this stacking box offers sufficient space for your components and reliably protects them from electrostatic discharge. Made of dissipative polystyrene (PS), the box ensures a conductivity value in the dissipative range of $>1 \times 10^4$ to $<1 \times 10^{11}$ ohms, which enables the safe discharge of static charges. The black color gives the can a professional look and fits perfectly into any work environment.

The ESD stacking box, article number 2428164, is a product from the renowned manufacturer Licefa and impresses with its robust design and practical hinged lid, which allows easy access to the contents. Ideal for use in electronics production, this stacking box offers a reliable and space-saving solution for your ESD-sensitive materials. Visit Weidinger.eu and get this essential accessory for your workshop.

- Material: dissipative PS (polystyrene)
- Conductance: (dissipative $>1 \times 10^4$ to $<1 \times 10^{11}$ Ohm)
- Color: black
