

ESD raster foam for case K2007 ESD, black, 365 x 245 mm

Discover the high-quality ESD foam for cases K2007 made of PU RG 23, available at Weidinger.eu. This dissipative, black foam is specially designed for the ESD case 2444070 and offers optimum protection for sensitive electronic components. The article with the number 2443871 consists of a punched part with a 15 mm grid (370x252x40 mm), a base plate (370x252x10 mm) and a nub cut at a ratio of 1:2 (370x252x40 mm).

The precise processing of the ESD grid foam from Licefa ensures safe storage and protection against electrostatic discharge. The precisely fitting shape makes it easy to adapt to individual requirements, while the conductive properties of the material ensure reliable ESD safety. Ideal for use in electronics manufacturing, this foam offers a durable and flexible solution for the safe transportation and storage of your valuable components. Rely on the quality and functionality of this product to provide optimum protection for your electronics.

- suitable for ESD case 2444070

consisting of:

- 1 x punched part, 15 mm grid, 370x252x40 mm
- 1 x base plate, 370x252x10 mm
- 1 x studded blank 1:2, 370x252x40 mm

Item no.	WL85798
Manufacturer	LICEFA
Manufacturer article no.	2443871
GPSR manufacturer data	LICEFA GmbH & Co.KG Lemgoer Strasse 11 DE-32108 Bad Salzuflen www.liceфа.de
Length	365 mm
Width	245 mm
Height	105 mm
Sales unit	1 piece
Content unit	1 piece
Colour	black
Incl. battery	no
ESD compliant	yes
