

ESD dimpled foam set for case K2007 ESD, black, 365 x 245 mm

Discover the high-quality ESD dimpled foam for case K2007 at [Weidinger.eu](https://www.weidinger.eu), ideal for electronics production. This foam, manufactured by Licefa, is made of PU RG 23 and is specially designed for the K2007 case. With item number 2443872, you receive a set consisting of two nubbed foam blanks measuring 370x252x45 mm in a ratio of 1:3.

The ESD dimpled foam is dissipative and offers optimum protection for sensitive electronic components. Thanks to its special structure, it reliably protects against electrostatic discharge, which can lead to damage to electronic components. The precise fit ensures that your devices are stowed safely and securely in the case, making transportation and storage considerably easier.

This dimpled foam is the perfect addition to your electronics manufacturing to ensure the safety and longevity of your products. Trust in the quality of Licefa and optimize your work

processes with this indispensable accessory.

consisting of:

- 2 x nub cutters, 370x252x45 mm 1:3
- 2 pieces = 1 set

Item no.	WL85799
Manufacturer	LICEFA
Manufacturer article no.	2443872
GPSR manufacturer data	LICEFA GmbH & Co.KG Lemgoer Strasse 11 DE-32108 Bad Salzuflen www.liceфа.de
Length	365 mm
Width	245 mm
Height	105 mm
Sales unit	1 piece
Content unit	1 piece
Colour	black
Incl. battery	no
ESD compliant	yes
