

ESD dimpled foam set for case K2006 ESD, black, 335 x 240 mm

Discover the high-quality ESD nub foam for case K2006 at Weidinger.eu, ideal for electronics production. This foam, manufactured by Licefa, is made of PU RG 23 and is specially designed for the K2006 case. With item number 2443873 you receive a set consisting of two nubbed foam blanks measuring 335x240x30 mm.

The ESD dimpled foam is dissipative and offers optimum protection for sensitive electronic components. The dimpled structure ensures secure fixation and prevents movement during transportation. This minimizes the risk of damage caused by electrostatic discharge.

Thanks to its precise fit, the foam is easy to insert into the case and offers efficient use of space. Trust in the quality of Licefa and protect your electronics with these reliable accessories. Visit Weidinger.eu for more information and order today.
consisting of:

- 2 x dimpled cut-outs, 335x240x30 mm 1:2
- 2 pieces = 1 set
