

ESD installation panel 210 ESD-CON, PS, black, 210 x 175 mm

Discover the high-quality 210 ESD-CON mounting plate from Licefa, available at Weidinger.eu. This precisely manufactured plate is specially designed for electronics manufacturing and offers a reliable solution for the safe storage and handling of sensitive components. Made from dissipative polystyrene (PS), it ensures optimum conductivity in the dissipative range of $>1 \times 10^4$ to $<1 \times 10^{11}$ ohms. The black support plate measuring 210 x 175 mm is ideal as a supplement to the 210 work bowl.

With item number 8190016, this accessory is an indispensable component for any ESD-sensitive environment. The punched surface ensures easy handling and organization of your components. Rely on the quality and functionality of the Licefa mounting plate to make your electronics production more efficient and safer. Visit Weidinger.eu to find out more about this and other high-quality products.
