

WT1011M 1-channel Nano/Pico soldering set, WT1M, 95 W, 230 V

Discover the WT 1M soldering station, your ultimate partner for top performance. With extremely short heat-up and recovery times, it completes all soldering tasks effortlessly. No more juggling with tools or compromising on performance - just reliable versatility and unbeatable value for money. Choose worry-free precision and unstoppable productivity. Choose a Weller WT soldering station.

- 1-channel nano/pico soldering unit (95 W) for the smallest soldering jobs.
- including WTPP MS nano/pico soldering pencil with active (cartridge) top technology
- RTP top family with 3 second heat-up time
- High productivity
- Intuitive operation thanks to clear menu structure
- Low space requirement due to stackability
- Graphic LC display with backlighting
- High performance and functionality - many tools can be connected
- Housing cover can be used as a tray

- Switch-off time, process window, locking function, offset
- Stackable units
- Can be connected to ZeroSmog solder fume extraction system

item number	WL86218
model	WT 1011M
manufacturer	WELLER
manufacturer item number	T0053449699
GPSR manufacturer information	WELLER Tools GmbH Carl-Benz-Strasse 2 DE-74354 Besigheim www.weller.eu
length with packaging	400 mm
width with packaging	280 mm
height with packaging	233 mm
scope of supply	WT1M supply unit, 230 V; WTPP MS soldering iron, 40 W, 12 V; RTP 004 S MS Nano/Pico soldering tip; WSR 205 safety rest with Stop & Go function
order unit	1 piece
content unit	1 piece
power	95 W
voltage	230 V
temperature range °C	50 – 450 °C
temperature accuracy °C	±9 °C
station type	soldering station
temperature stability °C	±2 °C
ESD safe	yes
