

## ESD earthing plug, 2x 10 mm push button, yellow

---

The SafeGuard ESD earthing plug is used to protect electronic devices and components from damage caused by electrostatic discharge. This plug is yellow in color and has 2 push buttons, each 10 mm in size. By using this plug, static electricity can be discharged from people or objects to prevent damage to electronic devices and components. Each of the 2 push buttons has a size of 10 mm, which makes it easy to handle. The yellow design of the plug helps to make it quickly recognizable and accessible. By using the ESD earthing plug from SafeGuard, you can be sure that the electronics in the environment are protected from damage caused by electrostatic discharge.

- without cable for EU socket outlet
- Connection: 2x10 mm push button

Item no.

WL86303

Manufacturer
