

Replacement frame LB-1421 for Strip Master Lite wire stripper

Ideal Stripmaster Lite Wire Stripper Frame only for 45671 and 45672

IDEAL® Stripmaster® Lite wire strippers are the industry standard for hand-held precision wire stripping tools. With their single-stage, high-leverage pressure function and unique precision blade design, they deliver fast, accurate results with minimal operator effort. Stripmaster® Lite wire strippers can be fully customized to your needs with your choice of gripping pads and blade sets for maximum flexibility. Optional accessories such as a short-stroke lock and transparent wire stop further increase the versatility of the tool and ensure consistent stripping lengths. The comfortable handles are color-coded to quickly identify the compatible wire gauge - red handles for larger wires (10-14 AWG) and black handles for smaller wires (16-30 AWG). Made from robust die-cast zinc, this compact wire stripper weighs 50% less and is only three quarters the size of its full-size counterparts. Designed for maximum comfort and productivity.

- Industry standard for hand-held, precision wire stripping

Products for the electronic industry

- One-step stripping maximizes productivity
- Precision ground blades ensure clean, accurate stripping
- Robust die-cast zinc frame ensures long service life
- Mechanical design with high leverage and spring force for low effort
- For precise and non-precise stripping applications
- Lighter and smaller than the full size Stripmaster® stripper

Item no.	WL86310
Manufacturer	IDEAL
Manufacturer article no.	LB-1421
GPSR manufacturer data	IDEAL Industries International BV Franciscusweg 267 NL-1216 Hilversum www.idealind.com
Sales unit	1 piece
Content unit	1 piece
Colour	black
Material	Plastic
Incl. battery	no
ESD compliant	no
