

Pre-filter for FAE1 extraction unit, 5 pieces

The FAE1-110 pre-filter protects the HEPA filter H13 and extends its service life. The combination of the three-layer filter system achieves a certified filter efficiency of up to 99.95 % for soldering fumes in accordance with the EN 1822 standard. The device also has an LED warning indicator that shows when the pre-filter or compact filter needs to be replaced. A corresponding message is also shown on the device display.
