

Cleaning and degreasing agent Electro-Wash PC, 200ml, with spray attachment

Electro-Wash® PX is a fast-drying, one-step precision cleaning and degreasing agent suitable for most plastics. This high pressure aerosol formulation has been developed with a very low surface tension, rinses areas clean and evaporates immediately without leaving any residue.

Features and benefits

- Safe on plastics
- Flammable
- Extra strong cleaning power
- Dries quickly, leaves no residue
- Removes organic and ionic soiling
- Aerosol with all-way spray valve; sprays in any direction
- Liquid can be used for immersion and rinsing

Products for the electronic industry

Applications

- Removes oils and hydraulic fluids from mechanical assemblies
- Cleans contamination from circuits prior to assembly
- Removes grease from production lines
- Cleans fiber optic connectors

Item no.	WL87173
Manufacturer	CHEMTRONICS
Manufacturer article no.	ES810E
Sales unit	1 cans
Content unit	1 cans
Incl. battery	no
ESD compliant	no
