

## Drawer block fastening set for Concept Ergo

The fastening set for drawer blocks is used for secure and permanent installation of drawer series 45 on all Concept Ergo workbenches. It ensures a stable connection between the drawer unit and the table frame and is designed for long-term use under industrial conditions. The construction meets the highest requirements for load capacity and operational safety in daily use.

- Suitable for drawer unit 45
- The drawer unit is attached to both C-rails

Item no.	<b>WL87742</b>
Manufacturer	TRESTON
Manufacturer article no.	DFCE-49
