

Cross connector for Concept Ergo, manually adjustable, 1200 mm

The use of a cross connector is recommended for the mobile use of a Concept Ergo work table in combination with castors. This serves to increase the stability of the frame during movement. The cross connector is only intended to reinforce the frame construction and is not suitable for mounting accessories.

- Only required for Allen key-adjustable frames with castors (or for greater rigidity)
- Included as standard with EL frames
- Not required for accessories (as with the predecessor)

Item no.	WL87751
Manufacturer	TRESTON
Manufacturer article no.	SBCE1200-49
GPSR manufacturer data	Treston Deutschland GmbH Frankfurter Str. 101 DE-65479 Raunheim www.treston.de
Width	1200 mm
Sales unit	1 piece

Products for the electronic industry

Content unit	1 piece
Colour	light grey
Incl. battery	no
ESD compliant	yes
