

ET soldering tip set

Original Weller ET replacement pack with 5 soldering tips. The original Weller ETA soldering tips are designed for use with the WEP70 soldering iron. This works with the WE1010 professional soldering station, which performs highly efficient and precise soldering tasks.

- Effective heat transfer: High quality copper core guarantees effective heat transfer to the solder joint.
- Extended service life: Iron and chrome coating extends the service life of the soldering tip.
- Original WELLER soldering tips: Weller original ET soldering tips have a long service life, which reduces the total cost of ownership. Over time, this soldering station could even pay for itself through lower tip and maintenance costs.
- High soldering quality: Original Weller soldering tips are designed for use with the WE1010 soldering station and offer temperature stability and a temperature lock function that protects the soldering tips, components and circuit boards and enables repeatable soldering results

Products for the electronic industry

- Selecting the right tip size: Select the size and geometry of your original Weller soldering tip so that it is sufficient to heat the solder joint effectively
- Weller ET soldering tips are designed for use with WE1010, WE1010EDU, LR21, WES51/50, WESD51
- Prevents the sensor from sticking: The soldering tips in the Weller ET series have a stainless steel cap in the sensor opening. This prevents the precision temperature sensor of the WEP70 soldering iron from sticking.

Item no.	WL87812
Manufacturer	WELLER
Manufacturer article no.	T0054104699
GPSR manufacturer data	WELLER Tools GmbH Carl-Benz-Strasse 2 DE-74354 Besigheim www.weller.eu
Sales unit	1 set
Content unit	1 set
Matching handpiece	WEP 70
ESD compliant	yes
