

Socket with 1/2" drive, 20 x 38 mm

Impactor socket for use with electric or pneumatic impact wrenches with 12.5 mm = 1/2" drive. The impactor technology ensures above-average tool life even under extreme conditions. With Take it easy tool finder with color coding by size - for finding the required tool quickly and easily. With hexagonal profile and groove with hole. The hexagonal profile enables the transmission of high forces and puts less stress on the edges of the screw nut or screw head than a twelve-edge profile. For hexagon head bolts and nuts.

- For use with electrically or air-driven impact wrenches with 12.5 mm = 1/2" drive
- Impactor technology for above-average tool life
- Hexagonal profile enables precise and profile-friendly fastening with high power transmission
- With Take it easy tool finder: color coding according to size
- With cross hole and ring groove for fastening the locking pin and circlip of machine-operated tools
