

Terminal block operating tool, 0.6 x 3.5 x 81 mm

Practical operating tool for spring terminals. The curved blade makes it easy to operate spring terminals in distribution boxes that cannot be reached with a straight blade. The blade remains in the terminal, leaving both hands free to insert the cable. Multi-component Kraftform handle for fast and gentle work.

- Suitable for spring terminals with a conductor cross-section of 2.5 to 4.0 mm²
