

Hex key set, imperial, BlackLaser, 13-piece

High-quality offset wrench set for imperial hexagon socket screws in a practical clip made of wear-resistant material for a permanently secure hold of the offset wrenches and easy removal. Hex key with Hex-Plus profile: Provides larger contact surfaces in the screw head. This reduces the notch effect to a minimum and virtually eliminates damage to the screw head. The ball on the long shank allows safe working even in difficult installation positions. The BlackLaser surface treatment ensures excellent surface protection, including against corrosion, and a long service life. Lasered and therefore abrasion-resistant size marking on the offset wrenches for quick access.

- Hex key set for hexagon socket screws
- Hex-Plus makes hexagon socket screws last longer
- BlackLaser for high corrosion protection and a long service life
- Hex keys are quickly at hand thanks to their size marking
- Wear-free clip material for increased service life

Item no.	WL88897
Model	950/13 Hex-Plus Imperial 1 SB
Manufacturer	WERA
Manufacturer article no.	05021721001
GPSR manufacturer data	WERA Werkzeuge GmbH Korzerter Strasse 21-25 DE-42349 Wuppertal-Cronenberg www.wera.de
Length	245 mm
Width	95 mm
Height	25 mm
Length with packaging	245 mm
Width with packaging	95 mm
Height with packaging	25 mm
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
VDE	no
ESD compliant	no
Number of parts in the tool set	13-piece
