

Multi-color offset wrench, imperial, BlackLaser, 3/8" x 224 mm

Hose-coated Wera offset wrench for hexagon socket screws to protect fingers. Ergonomic and comfortable grip even at low temperatures. The Hex Plus profile offers larger contact surfaces in the screw head. This reduces the notch effect to a minimum and virtually eliminates damage to the screw head. The ball on the long shank allows safe working even in difficult installation positions. The BlackLaser surface treatment ensures excellent surface protection, including against corrosion, and a long service life. Lasered and therefore abrasion-resistant size marking on the offset wrench for quick access.

- Hex key for hexagon socket screws
- Hex-Plus makes hexagon socket screws last longer
- Easy-to-grip hose sheathing, especially at low temperatures
- With hexagonal ball head on the long shank
- BlackLaser for high corrosion protection and long service life

Item no.	WL88970
Model	950 SPKL
Manufacturer	WERA
Manufacturer article no.	05022638001
GPSR manufacturer data	WERA Werkzeuge GmbH Korzter Strasse 21-25 DE-42349 Wuppertal-Cronenberg www.wera.de
Length	224 mm
Width	42 mm
Height	14 mm
Length with packaging	274 mm
Width with packaging	122 mm

Products for the electronic industry

Height with packaging	40 mm
