

Hex key, Imperial, BlackLaser, 1/4" x 100 mm

High-quality Wera offset wrench with color-coded, comfortable hose sheathing. This means the tool is quickly to hand and the ergonomic and comfortable handle is easy on the hands, even at low temperatures. Hex key with Hex-Plus profile: Provides larger contact surfaces in the screw head. This reduces the notch effect to a minimum and virtually eliminates damage to the screw head. The ball on the long shank allows safe working even in difficult installation positions. The BlackLaser surface treatment ensures excellent surface protection, including against corrosion, and a long service life. Lasered and therefore abrasion-resistant size marking on the angle wrenches for quick access.

- Short version
- Inch
- Hex key for hexagon socket screws
- Hex-Plus makes hexagon socket screws last longer
- Color-coded, easy-grip hose sheathing, even at low temperatures

Item no.	WL88980
Model	950 SPKS Multicolour
Manufacturer	WERA
Manufacturer article no.	05022657001
GPSR manufacturer data	WERA Werkzeuge GmbH Korzerter Strasse 21-25 DE-42349 Wuppertal-Cronenberg www.wera.de
Length	113 mm
Width	9 mm
Height	42 mm
Length with packaging	160 mm
Width with packaging	82 mm
Height with packaging	24 mm
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
VDE	no
ESD compliant	no
