Combination flag wrench, 15 IP x 47 mm

High-quality Wera flag wrench with combination profile for internal TORX PLUS® and hexagon socket screws. High torque transmission with small screws. Particularly suitable for replacing indexable inserts. The BlackLaser surface treatment ensures excellent surface protection, including against corrosion, and a long service life. Multi-component for a particularly good grip.

- TORX PLUS® combination flag wrench for internal TORX PLUS® and hexagon socket screws
- Multi-component handle
- Round blade with BlackLaser coating for excellent surface protection and long service life
- High torque transmission for small screws
