

## Screwdriver, 9 IP x 60 mm

High-quality Kraftform Plus screwdriver from Wera. TORX PLUS® profile: Compared to the "normal" TORX® profile, the enlargement of the 6 torque-transmitting flanks between tool and screw is realized by an elliptical and not circular profile design. This distributes the applied force over a larger area when screwing. Higher torques are transmitted and the service life of the screw and tool is also increased. Multi-component Kraftform handle for fast and gentle working. Kraftform Plus: Hard grip zones for high working speed, while soft grip zones guarantee high torque transmission. The Wera Black Point tip offers a precise fit and optimized corrosion protection. The hexagonal roll-off protection prevents annoying rolling away at the workplace. With handle marking to make it easier to find and sort the tool.

- Screwdriver for internal TORX PLUS® screws
- Multi-component Kraftform handle for fast and ergonomic screwdriving
- With handle marking to make it easier to find and sort the tool
- With hexagonal roll-off protection to prevent rolling away
- The Wera Black Point tip offers a precise fit and optimized corrosion protection

Item no.	<b>WL89302</b>
Model	367 TORX PLUS®
Manufacturer	WERA
Manufacturer article no.	05028033001
GPSR manufacturer data	WERA Werkzeuge GmbH Korzelter Strasse 21-25 DE-42349 Wuppertal-Cronenberg www.wera.de
Length	141 mm
Width	26 mm
Height	26 mm
Length with packaging	209 mm
Width with packaging	72 mm

Products for the electronic industry

Height with packaging	51 mm
