

Kraftform Compact 26 with bag, 7-piece

The Wera compact tools enable the simultaneous use of both "hand" and "machine" screwdriving methods. The handle interchangeable blade system in a compact design with different blade tips in the smallest possible space makes the user mobile and flexible. Suitable for bits with 1/4" external hexagon drive to DIN ISO 1173-C 6.3 and E 6.3 (ISO 1173) and Wera connection series 1 and 4. With connecting part, bayonet, Rapidaptor technology. Kraftform handle with roll-off protection, multi-component for particularly ergonomic screwdriving. Integrated magazine for storing bits. The bayonet blade with quick-change chuck, which can be retracted into the handle, allows quick manual operation even in confined spaces when the blade is retracted. The blade can be extended by simply pressing the locking sleeve. The bayonet holder can now be used like a fully-fledged screwdriver. The bayonet blade can be removed and used as a machine adapter and returned to its original position. With practical belt pouch.

- Bayonet blade retracts into the handle
- Integrated magazine for storing the bits
- With tough bits for universal use

- In robust pouch
- Ergonomic Kraftform handle for fatigue-free working

Item no.	WL89492
Model	Kraftform Kompakt 26
Manufacturer	WERA
Manufacturer article no.	05051025001
GPSR manufacturer data	WERA Werkzeuge GmbH Korzerter Strasse 21-25 DE-42349 Wuppertal-Cronenberg www.wera.de
Length	195 mm
Width	95 mm
