

## Kraftform hand holder with ratchet function, 9 x 115 mm

---

---

Hand holder for Wera Kraftform Kompakt VDE interchangeable blades with fine-toothed ratchet integrated in the handle (40 teeth/reverse angle 9°). The ratchet speeds up screwing without tedious re-setting. The ratchet mechanism is fully embedded in the handle for very easy and comfortable working. The handle / interchangeable blade system allows lightning-fast replacement of the required blade and therefore a wide range of applications.

- Kraftform Kompakt VDE hand tool holder with ratchet function
- The integrated ratchet with fine toothing ensures fast and safe working
- High working speed: the ratchet can also be used to 'twist' when fastening screws
- Ergonomic, intuitive switching to right/left or 0 position
- Kraftform Plus handle for comfortable ergonomic working

Item no.

WL89682
