

## Holder with ring magnet and snap ring, 1/4" x 75 mm

Wera impactor holder for absorbing extreme impact peaks. Special torsion effect due to double torsion spring. The impactor holder also holds long and heavy screws bombproof with its ring magnet. This enables lightning-fast and secure fastening of the screw. Also ideal for overhead work. If the magnet is not required due to the situation, e.g. when working with metal, it can be pulled out of the screwdriving area and thus switched off. Mainly used for manual machine screwdriving. Output: Suitable for bits with 1/4" external hexagon drive to DIN ISO 1173-C 6.3. Drive: 1/4" hexagon, suitable for screwdrivers with a DIN ISO 1173-F 6.3 socket.

- Impactor holder with ring magnet and snap ring for bits with 1/4" external hex drive
- For cushioning extreme impulse peaks with double torsion spring
- With ring magnet for easy holding of long and heavy screws
- Particularly suitable for use with standard impact screwdrivers
- With 1/4" hexagon drive

<b>Item no.</b>	<b>WL89689</b>
Model	897/4 IMP R Impaktor
Manufacturer	WERA
Manufacturer article no.	05057676001
GPSR manufacturer data	WERA Werkzeuge GmbH Korzelter Strasse 21-25 DE-42349 Wuppertal-Cronenberg www.wera.de
Length	165 mm
Width	60 mm
Height	23 mm
Length with packaging	246 mm
Width with packaging	89 mm
Height with packaging	62 mm
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
VDE	no
ESD compliant	no

Tool length

75 mm
