

Hexagon socket bit, stainless steel, 5 x 89 mm

High-quality stainless steel bits for hexagon socket screws. Wera stainless steel tools are made of stainless steel, which prevents unsightly extraneous rust. The Hex-Plus profile offers larger contact surfaces in the screw head. This reduces the notch effect to a minimum and virtually eliminates damage to the screw head. 1/4" hexagon, suitable for DIN ISO 1173-F 6.3 holders.

- For hexagon socket screws
- Stainless steel bits
- Solution to the extraneous rust problem: screw stainless steel to stainless steel!
- Vacuum ice-hardened
- Hex-Plus makes hexagon socket screws last longer
