

Hexagon socket bit, 4 x 25 mm

High-quality impactor bits for hexagon socket screws. The impactor technology ensures an above-average service life even under extreme conditions. Increased frictional resistance due to rough diamond particle coating on the bit tip prevents slipping out of the screw. Hex-Plus offers larger contact surfaces in the screw head. This reduces the notch effect to a minimum and virtually eliminates damage to the screw head. 1/4" hexagon, suitable for DIN ISO 1173-D 6.3 holders.

- For hexagon socket screws
- Impactor technology for above-average service life even under extreme conditions
- Particularly suitable for use with commercially available impact screwdrivers
- Diamond coating for a secure fit in the screw
- 1/4" hexagon drive (Wera connection series 1)

Item no.

WL90334

Products for the electronic industry

Model	840/1 IMP DC SB Impaktor
Manufacturer	WERA
Manufacturer article no.	05073904001
GPSR manufacturer data	WERA Werkzeuge GmbH Korzerter Strasse 21-25 DE-42349 Wuppertal-Cronenberg www.wera.de
Length	100 mm
Width	60 mm
Height	10 mm
Length with packaging	250 mm
Width with packaging	175 mm
Height with packaging	50 mm
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Bit length	25 mm
VDE	no
ESD compliant	no
Hexagon socket	4 mm
