Square drive bit, # 2 x 50 mm

High-quality bits for square socket screws. The impactor technology ensures above-average service life even under extreme conditions. Increased frictional resistance due to rough diamond particle coating on the bit tip prevents slipping out of the screw. Particularly suitable for use with standard impact screwdrivers. 1/4" hexagon, suitable for DIN ISO 1173-F 6.3 holders.

- For square socket screws
- Impactor technology for above-average tool life
- Particularly suitable for use with commercially available impact screwdrivers
- Diamond coating for a secure fit in the screw
- 1/4" hexagon drive (Wera connection series 4)
