

Torque wrench set, 40-200 Nm, 13-piece

Click torque wrench set in the unmistakable Wera design. Very robust design with high accuracy in accordance with DIN EN ISO 6789-1:2017-07. Easy setting and securing of the specified value. The audible and tactile click when the scale values are reached also makes it easier to set the desired torque value safely. The robust release mechanism guarantees a clearly audible and tactile release signal when the set torque is reached. For clockwise tightening and with reversible ratchet with 45 teeth. Torque wrench and torque-compatible accessories are packed in a robust, surface-friendly textile box to save space. Included are: Click-Torque C 3, 1/2", 40 - 200 Nm, 4 sockets with 1/2" drive, 7 Hex-Plus hexagon socket and TORX® bit sockets plus extension.

- 13-piece screwdriving tool set for applications with torque control
- Simple setting and securing of the desired torque value with audible and tactile click when the scale values are reached (click 1)
- Safely dosed force: the torque wrench releases audibly and perceptibly when the set value is reached (click 2)
- Robust, surface-friendly, compact textile box

• 1/2" square drive. Measuring range: 40-200 Nm; precision $\pm 3 \%$ in accordance with DIN EN ISO 6789-1:2017-07
