

Torque wrench set, 1/4" hexagon, 2-12 Nm, 23-piece

23-piece; in surface-friendly, compact textile box with high robustness. Low volume and weight for simplified mobility.

1 Safe-Torque A 2 torque wrench with 1/4" hexagon drive, measuring range 2-12 Nm; for controlled right and left-hand tightening; tightening and loosening with and without torque, torque function can be switched off (torque lock function); 72 teeth; low return angle of 5°; easy setting and securing of the desired torque value, with audible and tactile click when the scale values are reached, slipping release mechanism when the set torque value is reached; ergonomic 2-component handle; 9 Zyklop sockets, 12 bits (1/4", 50 mm long), 1 connecting piece for sockets (1/4" external hexagon to 1/4" external square).

- Slip-over release mechanism - the set torque value can therefore never be exceeded
- Torque lock function: The torque function can be switched off - tool can therefore also be used as a standard ratchet with high release torques and for defined rotation angle applications
- For controlled right-hand and left-hand tightening - tightening and loosening with and without torque
- Simple setting and securing of the desired torque value with audible and tactile engagement when the scale values are reached
- Only 30° release angle after reaching the target torque

Item no.	WL90436
Model	Safe-Torque A 2 Set 1
Manufacturer	WERA
Manufacturer article no.	05075832001
GPSR manufacturer data	WERA Werkzeuge GmbH Korzerter Strasse 21-25 DE-42349 Wuppertal-Cronenberg www.wera.de
Length	275 mm
Width	100 mm
Height	65 mm
Length with packaging	275 mm
Width with packaging	100 mm
Height with packaging	65 mm
Sales unit	1 piece

Products for the electronic industry

Content unit	1 piece
Incl. battery	no
VDE	no
ESD compliant	no
Torque	2 – 12 Nm
Number of parts in the tool set	23-piece
