

## TORX® PLUS bit, 3 IP x 25 mm

High-quality bits for internal TORX PLUS® screws. TORX PLUS® profile: Compared to the "normal" TORX® profile, the enlargement of the 6 torque-transmitting flanks between tool and screw is realized by an elliptical and not circular profile structure. This distributes the applied force over a larger area when screwing. Higher torques are transmitted and the service life of the screw and tool is also increased. Extra hard. 1/4" hexagon, suitable for DIN ISO 1173-D 6.3 holders.

- For internal TORX PLUS® screws
- Tough and hard, for universal use
- 1/4" hexagon drive (Wera connection series 1)

<b>Item no.</b>	<b>WL91116</b>
Model	867/1 IP TORX PLUS®
Manufacturer	WERA
Manufacturer article no.	05160956001
GPSR manufacturer data	WERA Werkzeuge GmbH Korzerter Strasse 21-25 DE-42349 Wuppertal-Cronenberg www.wera.de
Length	25 mm
Width	7 mm
Height	6 mm
Length with packaging	58 mm
Width with packaging	34 mm
Height with packaging	15 mm
Sales unit	1 piece

Products for the electronic industry

Content unit	1 piece
Incl. battery	no
Bit length	25 mm
VDE	no
Screw type	3IP
ESD compliant	no
