AirGuard Pro 360 respirator half mask, bayonet lock, orange

The AirGuard Pro® 360 is a high-performance, reusable respirator half mask that has been specially developed for professional use in demanding work environments. It provides reliable protection against harmful particles, gases and vapors and meets the high requirements of the European standard EN 140:1998.

Thanks to its ergonomic fit, high-quality materials and compatibility with a wide range of filters, the AirGuard Pro® 360 offers reliable protection and optimum wearing comfort.
• Flexible fit for an airtight seal without pressure points
• Soft silicone sealing lip for comfortable wear even over longer periods of time
• Adjustable elastic headband for individual adjustment
• Complies with the EN 140:1998 standard for tested respiratory protection quality
• Compatible with EN 143 particle filters (P1, P2, P3) and EN 14387 gas and combination filters
• Integrated exhalation valve reduces breathing resistance and prevents moisture formation

- Resistant to chemicals, heat and mechanical stress
- Easy to clean and designed for regular use
- Versatile application options for industry, trade, laboratory and construction
- Flexible protection thanks to various filter options for particles, gases and vapors
- Hygienic use thanks to simple decontamination
- High wearing comfort thanks to lightweight design and optimized weight distribution

Item no.	**WL91287**
Manufacturer	DS SAFETY WEAR
Manufacturer article no.	AG360
GPSR manufacturer data	DS SafetyWear Im Rohnweiher 14 DE-53797 Lohmar www.dssafetywear.de
Sales unit	1 piece
Content unit	1 piece
Colour	orange
Standards	EN 140:1998, respiratory protection half and quarter masks
ESD compliant	no
Risk category (PPE regulation)	Category 3
Mask type	respiratory protection mask
Breathing valve	yes
