

AirGuard Pro 360 respirator half mask, bayonet fitting, white

The AirGuard Pro® 360 White is a high-performance, reusable half mask respirator that has been specially developed for professional use in sensitive work areas. Its discreet, white design is particularly suitable for applications where a clean appearance and hygienic standards are paramount.

With its ergonomic fit, high-quality materials and compatibility with various filters, the AirGuard Pro® 360 White reliably protects against harmful particles, gases and vapors. The mask meets the strict requirements of the European standard EN 140:1998 and is ideal for use in industry, research, medicine and laboratory environments.

- Adaptable silicone sealing lip for optimum fit and secure seal
- Lightweight material for high comfort even during long periods of use
- Adjustable elastic headband for individual fit
- Certified according to EN 140:1998 for tested protective performance
- Compatible with EN 143 particle filters (P1, P2, P3) and EN 14387 gas and combination filters

- Efficient exhalation valve reduces breathing resistance and prevents moisture formation
- Particularly suitable for hygienically sensitive work areas
- Easy to clean and designed for regular use
- Resistant material to chemicals, heat and mechanical stress
- Neutral, professional design for hygienically demanding work areas
- Wide compatibility with various filters for individual protection
- Optimized carrying system for high comfort and safe working
- Easy cleaning and decontamination for long-term use

Item no.	WL91288
Manufacturer	DS SAFETY WEAR
Manufacturer article no.	AG360W
GPSR manufacturer data	DS SafetyWear Im Rohnweiher 14 DE-53797 Lohmar www.dssafetywear.de
Sales unit	1 piece
Content unit	1 piece
Colour	white
