

DPM solder paste dispenser, manual

Dispenses solder paste, adhesive, solder flux etc. - ideal for SMT rework. Thanks to its design, the finger contact point is very close to the application point. In addition, DPM ensures smooth feeding of solder paste for small and hard-to-reach components. With its metallic mechanism, DPM ensures reliable performance even with intensive use and is therefore well suited to demanding environments. This type of dispenser is ideal for soldering multi-pole SMD components with hot air. DPM is compatible with a wide range of needles and tips and ensures maximum dispensing accuracy. Syringe barrels with a capacity of 3 cc or 5 cc can be used.

(Solder paste and needle not included)

Item no.	WL91819
Manufacturer	JBC
Manufacturer article no.	DPM-C

GPSR manufacturer data	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
Length	130 mm
Width	66 mm
Height	16 mm
Sales unit	1 piece
Content unit	1 piece
Colour	black
Incl. battery	no
ESD compliant	no
