

Cleanroom wipes 23x23cm, cleanroom class ISO 6, white, 150 pieces

These cleanroom wipes have been developed for demanding cleaning tasks in controlled environments where electrostatic charges must be minimized, surface particles removed and sensitive components treated gently. The anti-static properties and 100% polyester knit provide consistent cleaning efficiency with stable performance.

Areas of application

- Removal of dust, particles and surface contamination
- Protection and cleaning of sensitive parts and components
- Pre-cleaning before assembly or test processes
- Control of electrostatic effects during precision work
- Use in electronics, semiconductors, optics, laboratory environments and precision production environments

Packaging

Supplied as 150 wipes per pack. The packaging is designed for clean storage and controlled removal.

- ISO-6 compliant for controlled environments with defined cleanliness conditions
- Antistatic to reduce electrostatic charge
- 100% polyester knitted fabric with high cleaning efficiency
- Low particle and fiber release for clean surfaces
- Good absorption and removal of dirt particles
- High chemical compatibility with common solvents and cleaning media
- 120 g/m² for controlled liquid absorption and wiping performance
- Long service life and stable surface performance
- Ergonomically designed for efficient manual cleaning
- Size per wipe: 9" x 9" format
- Material: 100% polyester knitted fabric

Item no.	WL92108
Manufacturer	DS SAFETY WEAR
Manufacturer article no.	DP3302-6
GPSR manufacturer data	DS SafetyWear Im Rohnweiher 14 DE-53797 Lohmar www.dssafetywear.de
Sales unit	1 PU
Content unit	1500 piece
ESD compliant	yes
