

ESD Sweatshirt Jacket with Zipper, Royal Blue, XL, Comfort Fit

The royal blue ESD zip-up sweatshirt from Safeguard is suitable as unisex workwear for ESD-protected areas. With a higher fabric weight of 300 g/m², this model offers improved comfort and a more pleasant fabric feel. The carbon fiber content has been increased to 10% from 4%; additionally, longer sleeves ensure an optimized fit. The premium quality is further evident in the durable, printable design featuring cuffs and a hem. The Comfort-Fit and modern cut ensure that the garment drapes comfortably on the body without feeling stiff, while also keeping the wearer pleasantly warm. It is EPA-compliant and shrinks by only about 3–6% during the first wash. A stand-up collar, long sleeves, and a high-quality zipper provide functional features; the ESD symbol is clearly visible on the left sleeve. The material is composed of 45% polyester, 45% cotton, and 10% carbon. The sweatshirt is ESD-compliant, certified according to IEC 61340-5-1, and has a surface resistance (Rp) of 10⁶ to 10⁷ ohms.

- Premium Quality
- Cuffs and hem
- Shrink only 3–6% after the first wash
