

ESD Sweatshirt, V-neck, black, XS, Comfort Fit

The black ESD sweatshirt from Safeguard is a unisex long-sleeve style with a classic V-neck designed for ESD-protected work areas. With a higher fabric weight of 300 g/m², this style offers improved comfort and a more pleasant fabric feel. The carbon fiber content has been increased to 10% from 4%; additionally, longer sleeves ensure an optimized fit. The premium quality is also evident in the durable and printable design featuring cuffs and a hem. The Comfort-Fit and modern cut ensure that the garment drapes comfortably on the body without feeling stiff, while also keeping the wearer pleasantly warm. It is EPA-compliant and shrinks by only about 3–6% during the first wash. An ESD symbol on the left sleeve identifies the sweatshirt as ESD-compliant clothing. It is made of 45% polyester, 45% cotton, and 10% carbon, and is ESD-compliant and certified according to IEC 61340-5-1. The surface resistance (Rp) is 10⁶ to 10⁷ ohms on both sides.
