ESD Sweatshirt, Crew Neck, Royal Blue, XS, Comfort Fit

The royal blue ESD sweatshirt from Safeguard is designed as unisex workwear for ESD-protected areas. With a higher weight per unit area of 300 g/m^2, this model offers improved comfort and a more pleasant fabric feel. The carbon fiber content has been increased to 10% from 4%; additionally, longer sleeves ensure an optimized fit. The premium quality is also evident in the durable and printable design featuring cuffs and a hem. The Comfort-Fit and modern cut ensure that the garment drapes comfortably on the body without feeling stiff, while also keeping the wearer pleasantly warm. It is EPA-compliant and shrinks by only about 3–6% during the first wash. A crew neck and long sleeves create a classic look, while the ESD symbol on the left sleeve indicates the garment's protective function. The material is composed of 45% polyester, 45% cotton, and 10% carbon. The sweatshirt is ESD-compliant, certified according to IEC 61340-5-1, and has a surface resistance (Rpp) of 10^5 – 10^7 ohms.
