ESD Safety Shoe S1P SRC Runner 955 BOA, Size 37

BE A RUNNER - FEEL THE ENERGY
Safety shoes with the perfect blend of lifestyle style and performance

The ATLAS RUNNER reflects the style of the new workwear: fashion meets function.

Thanks to their snug-fitting Monosock, the RUNNER models from ATLAS offer an extremely flexible fit, with an upper made of very comfortable and elastic LIGHT KNIT. The 100% woven, seamless upper combines optimal support and performance with pleasantly soft comfort for a natural walking experience.
With the Sporty outsole system, ATLAS has developed a sole complex that supports the wearer in every situation and is extremely responsive.

In addition to its high functionality, the shoe's design makes it a standout even outside the workplace. A safety shoe or a sneaker? The wearer decides.
