

Highly absorbent oil cleaning cloths, 25x34 cm, cleanroom class ISO7, blue, 66 pieces

The Heavy Duty Oil Cleaning Cloths have been developed for demanding cleaning tasks in industrial and controlled environments where high demands are placed on oil, grease and solvent absorption. Thanks to their special material structure, these cleaning cloths are characterized by their high absorption capacity, high mechanical stability and reliable performance in removing stubborn residues.

Areas of application

- Removal of oil, grease and lubricants from surfaces
- Preparation of production areas for assembly and inspection
- Cleaning machines, tools and systems in industrial environments
- Removal of adhesive and media residues
- Use in painting, coating and printing processes
- Surface cleaning before measuring or calibration processes

The packaging is designed for clean storage and controlled removal.

- Excellent oil and grease absorption due to specialized material
 - Robust, mechanically resilient structure even when used wet
 - High chemical compatibility with common cleaning fluids and solvents
 - Low particle release to support clean working environments
 - Fast pick-up and effective cleaning even with heavy soiling
 - Durable and reusable - suitable for repeated applications
 - Wide range of applications for oil, lubricants, metalworking residues and industrial soiling
-
- Format: Quarter-fold
 - Construction: Bark structure
 - Roll form: Perforated roll - 717 sheets per roll / case

Item no.	WL93454
Manufacturer	DS SAFETY WEAR
Manufacturer article no.	D4204
GPSR manufacturer data	DS SafetyWear Im Rohnweiher 14 DE-53797 Lohmar www.dssafetywear.de
Length	250 mm
Width	340 mm
Sales unit	1 PU
Content unit	66 piece
Colour	blue
Material	100 % polypropylene meltblown
Incl. battery	no
ESD compliant	no
