Highly absorbent oil cleaning wipes, 30x30cm, cleanroom class ISO7, white, 100 pieces

These Cleanroom Oil Cleaning Cloths have been developed for the efficient cleaning of oil, grease, lubricants and other stubborn soiling. Thanks to the use of meltblown polypropylene, the cloths have a high absorption capacity, consistent mechanical strength and good chemical compatibility. They are suitable for cleaning processes where a controlled low particle count and high material stability are required.

Areas of application:
- Removal of oil, grease and lubricants from surfaces
- Cleaning of production facilities, tools and components
- Removal of adhesive and ink residues
- Surface preparation for assembly, coating and printing processes
- Cleaning processes in controlled environments with defined cleanliness requirements

Packaging:
The Cleanroom Oil Cleaning Cloths are supplied in a packaging unit of 100 cloths per bag. The wipes are packaged in such a way that they remain protected from contamination until they are removed and maintain defined cleanliness conditions.

- Highly absorbent material structure - absorbs oil and grease quickly
- Meltblown polypropylene - high absorption capacity with low fiber release
- Robust, wet-strength construction - mechanically stable even with intensive use
- Good chemical resistance - compatible with solvents and cleaning agents
- Low particle and dust release - minimizes contamination risks
- Efficient single wipe removal - controlled dosing
- Effective at removing adhesive, ink and oil spills
- Structure: Open-pored, high capacity
- Shape: Quarter folded
- Packaging format: Flat stacked

Item no.	**WL93455**
Manufacturer	DS SAFETY WEAR
Manufacturer article no.	D4301
GPSR manufacturer data	DS SafetyWear Im Rohnweiher 14 DE-53797 Lohmar www.dssafetywear.de
Length	300 mm
Width	300 mm
Sales unit	1 PU
Content unit	500 piece
Colour	white
Material	100 % polypropylene (meltblown)
ESD compliant	no
