Cleanroom swab Swab, 124 mm, large surface, foam, cleanroom class ISO 8, 100 pieces

This foam cleanroom swab is designed for cleaning tasks in ISO 8 classified cleanrooms (cleanliness class 100,000). The large-area foam head with open-pored polyurethane enables effective particle and liquid pick-up over wider surfaces and is ideal for surface and detail cleaning in controlled environments.

Swab dimensions:
- Overall length: 124 mm
- Foam head length: 24 mm
- Foam head width: 12 mm
- Shaft width: 5.7 mm

Areas of application
- Surface and detail cleaning in ISO 8 cleanrooms (Class 100,000)

- Removal of particles, media or solvent residues
- Cleaning large or overlapping surfaces
- Preparation of components and work surfaces before assembly or measuring processes
- Inspection and removal of the finest contaminants in gaps and transitions

Packaging
The polyester cleanroom swabs are supplied in a packaging unit of 100 pieces.
- Suitable for ISO 8 cleanrooms (cleanliness class 100,000)
- Large-area foam head for efficient surface and spot cleaning
- Open-pore polyurethane foam (100 ppi) with high particle absorption capacity
- Low non-volatile residue (NVR) and low ion content
- Soft, non-abrasive surface for gentle cleaning of sensitive materials
- Thermally bonded foam head - no contamination from adhesives
- Sturdy PP shaft for controlled manual application
- Compatible with common cleaning media and solvents
