

Cleanroom swab, 65 mm, foam, spiral tip, cleanroom class ISO 5, 500 pieces

This foam cleanroom swab was developed for cleaning requirements in controlled cleanroom environments. The polyurethane foam head and polypropylene shaft make this swab particularly suitable for cleaning small areas, threaded openings and hard-to-reach places.

The spiral-shaped, threaded tip helps to effectively remove stubborn dirt and pick up foreign particles. The hot-pressed structure ensures a stable connection and improves abrasion resistance.

Dimensions of the swab

- Total length: 65 mm
- Tip length: 15 mm
- Tip width: 3.8 mm

- Shaft width: 2.5 mm

Areas of application

- Cleaning threaded openings and technical components
- Cleaning camera lens surfaces and pipe connections
- Removal of stubborn dirt and particles
- Cleaning of areas that are difficult to access
- Suitable for cleanroom environments with defined cleanliness requirements
- Polyurethane foam head with open-cell structure (100 ppi)
- Spiral, threaded tip for cleaning threads and hard-to-reach areas
- Hot-pressed connection for improved adhesion and abrasion resistance
- 100% polypropylene shaft
- Soft and non-abrasive, suitable for delicate surfaces
- Good chemical compatibility with various solutions
- High liquid and particle absorption capacity
- No adhesive contamination
- Very low ionic and NVR residues

Item no.	WL93461
Manufacturer	DS SAFETY WEAR
Manufacturer article no.	DFS751
GPSR manufacturer data	DS SafetyWear Im Rohnweiher 14 DE-53797 Lohmar www.dssafetywear.de
Sales unit	1 PU
Content unit	500 piece
Total length	65 mm
Incl. battery	no
Tip length	15 mm
ESD compliant	no
