

Universal cleaning wipe 38×42 cm - Highly absorbent wipe made of cellulose-PP composite, white, 70 pieces

With a basis weight of 79.6 g/m², an absorption capacity of 425 ml/m² and a fast absorption rate of 0.40 seconds, the wipe is particularly suitable for applications where rapid absorption of liquids and clean working are required. The generous format of 38×42 cm supports efficient mopping of larger areas and reduces consumption per application.

The white color facilitates visual inspection of soiling and residues and is particularly suitable for areas with increased requirements for cleanliness and process control.

Typical areas of application

- Manufacture and maintenance of vehicles and means of transportation
- Rail transport and aviation industry
- Printing industry
- Food processing

- Metal processing
- Power generation and other industrial production and maintenance sectors
- Cellulose-PP composite material for high absorption performance and stability
- Fast liquid absorption for efficient cleaning processes
- Good tear resistance and dimensional stability in wet and dry use
- 38×42 cm size for wiping larger surfaces
- White color for better visual control of dirt and residues
- Universally applicable for cleaning, maintenance and servicing
- Balanced surface weight for controlled handling and economical consumption

Item no.	WL93467
Manufacturer	DS SAFETY WEAR
Manufacturer article no.	DM3842
GPSR manufacturer data	DS SafetyWear Im Rohnweiher 14 DE-53797 Lohmar www.dssafetywear.de
Sales unit	1 PU
Content unit	420 piece
Incl. battery	no
ESD compliant	no
