

Electric Carousel Tape Dispenser

The TDA025B electric carousel tape dispenser from START International is ideal for use by multiple operators.

The unique feed system places the tape on the carousel so that it can be easily removed.

- Automatic feeding and cutting of tape to a specified length
- Suitable for tapes with core diameters of 1", 1.25", and 3" (25, 32, 76 mm)
- Suitable for adhesive tape widths from 0.12" to 0.98" (3 to 25 mm)
- Allows cutting up to 20 pieces of tape at the push of a button
- Cuts lengths from 0.6" to 2.76" (15 to 70 mm)
- Compact design
- Light sensor
- Three cutting modes: automatic, semi-automatic, and manual
- Maximum outer diameter of the roll: 5.9" (150 mm)
- Lightweight
