

Brosse nettoyante pour tuyau aspirant EF, 4 mm

The cleaning brush for FE extraction tube with a diameter of 4 mm is an indispensable tool for the effective maintenance and cleaning of extraction systems. Developed for professional use, it enables thorough removal of deposits and contamination that can impair the performance of extraction pipes. The brush is specially adapted to the requirements of FE extraction pipes and ensures precise cleaning without damaging the material. Ideal for use in environments where cleanliness and efficiency are top priorities. Available from Weidinger.eu.
