

## ERSA X-TOOL VARIO

---

---

The new Ersa X-TOOL VARIO impresses with its highly efficient 150 W heating technology. The X-TOOL VARIO masters desoldering tasks where previous tools reach the limits of their performance with flying colors. The design of the heater and desoldering tips ensures efficient heat transfer to the solder joint and rapid removal of the extracted solder. For the user, the ergonomically shaped handle means relaxed working with a natural hand position. The slim shape of the heating head and soldering tip enables desoldering even on tightly fitted PCBs. The amount of solder taken up is visible at all times in the transparent solder container. This allows the user to empty the remaining solder as required in just a few simple steps. Like many other Ersa soldering tools, the X-TOOL VARIO also contains a motion sensor so that the standby function and sleep mode can be optimally used to save energy and protect the desoldering tips. As with the tried-and-tested X-Tool, the desoldering tips on the X-TOOL VARIO are simply plugged in and can be changed very quickly.

- Fer à dessouder X-TOOL VARIO de : i-CON 2 V, i-CON VARIO 2 et i-CON VARIO 4.
- Diamètre intérieur panne à dessouder 1,2 mm

<b>Numéro d'article</b>	<b>WL36512</b>
Modèle	740EDJ
Fabricant	ERSA
Numéro d'article du fabricant	0740EDJ
Données du fabricant du GPSR	ERSA GmbH Leonhard-Karl-Strasse 24 DE-97877 Wertheim www.ersa.de
Unité de vente	1 pièce
Unité de contenu	1 pièce
Batterie incluse	non
Conforme RoHS	oui
Puissance de chauffage	150 W
Tension	24 V
Temps de chauffage	35 s
Pièce à main (type)	fer à dessouder
Plage de température °C	150 – 450 °C
Support assorti	0A56
Conseils de correspondance	742
Unité de commande correspondante	i-CON1V, i-CON1V0C, i-CON2V, i-CON2V0C, i-CON VARIO 2, i-CON VARIO 4
Conforme aux normes ESD	oui
