

## Adaptateur de microscope pour iPad Air2

---

The iZoom microscope adapter from HISTOSERV makes it easy to connect an iPad Air 2 to a commercially available microscope. This allows observations to be conveniently shown on the display, documented and further processed - ideal for applications in laboratories, education and quality assurance.

The adapter can be used universally and is compatible with almost all common microscopes. In addition to the suitable holder for the iPad Air 2, the scope of delivery also includes an adjustment tool as well as assembly and operating instructions to ensure quick and precise setup.

The stable design ensures that the tablet is held securely and enables precise alignment for optimum image transmission. A practical solution for the digital extension of classic microscopy.
