

## Buse à dessouder pour DS360-A, pour broche avec D max = 0,8 mm

---

---

The C360-103 desoldering nozzle from JBC is a precisely matched nozzle for use with the DS360 desoldering tool and is ideal for fine desoldering work on electronic components.

With an inner diameter of 1.0 mm and an outer diameter of 1.4 mm, it is optimally designed for pins with a maximum diameter of 0.8 mm. This enables clean and efficient removal of solder, especially for through-hole components and fine solder joints.

The nozzle is simply pushed on (with collar) and ensures a secure fit and reliable heat transfer during the desoldering process. As part of the C360 tip series, it stands for the usual high quality and durability of JBC.

Ideal for use in electronics production, repair, maintenance and rework, where precise and gentle desoldering is crucial.

- D extérieur = 1,4 mm, D intérieur = 1,0 mm
- à emboîter avec collerette

<b>Numéro d'article</b>	<b>WL41564</b>
Modèle	C360-103
Fabricant	JBC
Numéro d'article du fabricant	C360103
Données du fabricant du GPSR	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
Unité de vente	1 pièce
Unité de contenu	1 pièce
Batterie incluse	non
Série de conseils	C360
Diamètre de la broche (max.)	0,8 mm
Diamètre intérieur	1 mm
Diamètre extérieur	1,4 mm
Pièce à main assortie	DS360
Conforme aux normes ESD	non
